

Betton House to Close

Betton House has helped many students make the transition to sober adulthood, and we are proud of its successes. However, we have been unable to build its enrollment to a point that it is self sustaining. We will be closing effective August 31, 2008.

We chose this date because it allowed us to complete our summer program. We are in the process of finding alternative housing for those students planning to stay through the fall and are working with them and their parents to get them the support they need. We appreciate the support NATSAP members and referring professionals have given us.
